

**WHEN YOU'RE PROUD OF SOMETHING,
YOU PUT YOUR NAME ON IT.
WHEN YOU'RE REALLY PROUD,
YOU PUT A SERIAL NUMBER ON IT.**

Introducing the Maglite® LED flashlight.

As precision an instrument as we've ever designed, combining legendary Maglite durability with state-of-the-art LED technology.

You'll find a powerful projecting beam that focuses effortlessly by simply rotating the head.

You'll find Balanced Optics™, combining a highly refined reflector with a quality LED, for a brilliant, adjustable beam.

And you'll find Intelligent Energy Source Management that balances intense brightness with efficient power usage to make your batteries last even longer.

It's an LED flashlight so advanced, in fact, so unique, we carefully engrave each one with its own individual serial number.

After all, anyone can build a flashlight.

It takes a company like Maglite to build flashlights with such pride, we give them each a name of their own.

*MAG Instrument, Inc., 2001 South Hellman Avenue
